

Ans of Question Number - 7

Artificial Intelligence

Artificial Intelligence mostly known as AI is a modern technology which contains hardware and software and try to do tasks like human brain. It is nowadays used widely in all sectors like teaching, nursing, training etc. Doctors can use AI to define any problem precisely. AI also can help students at making notes. Freelancers use AI to do their work fast which saves both time and energy. So, AI is seen in all sectors and it is increasing rapidly because of it's

usefulness. ~~which~~ ^{some} task are time consuming and hard AI can easily solve them at no time. It has become an important part of our daily life. Because of AI teaching and learning got revolutionized. It can help teachers to ~~make~~ gather information about any topic it can also make a slide which can be used for teaching students. AI is very useful for us but it also have some threatening aspects such as taking peoples job, data loss, privacy lack and It has become so powerful that if anyone uses it for any bad

~~3~~ work like hacking, it can affect the whole nation. So, we all should use this modern technology for the pleasure of ~~marking~~ mankind.

Answer of Question Number - 8

The sources of the USA electricity in 1980

In the given pie-chart we can see ~~that~~ the sources of the USA electricity in 1980.

In 1980 The main source of generation electricity in USA was ~~24%~~ ~~Natural~~ Coal ~~gas~~ which was the highest ~~46%~~ of

the total sources. It was the highest demand for generating electricity. After that Natural gas the second highest option for generating electricity which was 24%. Then it was Hydro-electric power which was 16% of total. 12% electricity was generated from oil. Now the least used one was Nuclear only 2%.

So, we can make a conclusion that they used so much non-renewable energy which are limited in nature. If we want to save these natural resources we should increase the use of renewable energy.

Answer of the Question Number - 9

Size doesn't Matter

Once a lion was sleeping in a forest. Suddenly a mouse came there. It was, in fact, playing on a race quite happily and didn't notice the sleeping lion. While running, its ~~is~~ sound woke up the lion.

3 The lion caught the mouse. The mouse got scared and told the lion ~~to~~ ~~an~~ to let him free, one day he might ~~ka~~ save the lion's life. Hearing this the lion laughed and told the mouse that he was small how even can he save the life of the lion. At last the lion let ~~freed~~ the mouse go. One day, in

the jungle the mouse heard a sound
he followed ~~the~~ sound and saw
that the lion was trapped in a net
which was put there by the hunters.
He went to the lion and cut the net
with his sharp ~~teeth~~ teeth. The lion
was grateful for him as the mouse
~~have~~ saved his life. Then ~~he~~ ^{realised}
~~the~~ the lion's size doesn't matter
to do any work.

Ans of the Question Number - 11

There are two kind of dream, one which we see while we sleep and another because of which we can not sleep. Those dream we see while sleeping is not for us. Those which take our sleep is our real dream and these are possible to ~~be~~ come true.

Ans. Answer of the Question Number - 10

Jatrabari, Dhaka-1204

27-06-2026

Dear Saiful,

At the beginning of the letter take my ^{heart} salam and the best wishes from the core of my.

In your letter you wanted to know about my future plan after passing the HSC Exam. Today I am writing so.

After my HSC Exam I will get a lot of free time which I am thinking to use for freelancing. Freelancing means working from home. There are so many works which can be done in Freelancing. Such as video editing, ~~graph~~ graphic design, AI work and many more others

works : It can be time consuming to grow in this sector. Moreover, I can earn money by doing this which can help me to become self-reliant.

No more today. You can also shape what you will do after the HSC Exam. Hoping to hear from you soon.

Yours ever,

Kalam

d) nutritious.

e) sincere.

f) healthy.

g) helps.

h) provides.

i) right.

j) major.

Answer of the Question Number-3

In the poem Hope is compared with bird. Bird always flies here and there. In the jungle in rain, in winter and also in the strangest sea we can hear it. Its singing keeps many people warm. Like the bird we can find hope anywhere in any situation. In our best times or on the times where we are alone.
