Azimpur, Dhaka

Dear friend,

At first take my cordial love and
good wishes to you. Hope that you are
all well by the grace of Allah. I'm
also well. I received your letter yesterday.
In your letter, you have wanted to know
about the future plan after passing
HSC exam. Now I'm writing you about
about it.

HSC exam is knocking at door. After
days left. After our HSC exam,
we have a long time and it's will
be the right time for building our life.

Our future life is depended on it. So
we have to ~~make~~ ensure that we are
using this time properly. I've decided
to do a lot of things in this time. First
of all, I'll learn the computer programmes
properly, which can help me a lot.
I'll build a part time business which
can ~~run~~ be run on my free time.
I'll also start some tuition for the junior
students. I think, it'll be perfect for
me in this long run of life.

No more today. Convey my salam
to your parents and love to the younger.
Yours ever
Sahib

Sources of the USA electricity in 1980

46% - Coal

29% - Natural gas

16% - Hydro electric power

13% - Oil

2% - Nuclear

This pie chart is about the sources of USA electricity in 1980. The chart contains 100%, divided into 6 parts of different percentages which represent the ~~same~~ powers.

In this chart, USA generate 46% electricity from coal. 29% of electricity was generated from natural gas which was ~~not~~ an average deal.

16% from hydro electric power and 12% from oil was also a notable source of electricity. Finally, a few amount of electricity was generated from nuclear and it was 2%, as according to the chart.

So the chart clearly shows that, the main source of electricity of USA in 1980, was coal. Natural gas was the 2nd choice of them. And lastly, the nuclear source was not effective on that time.

Artificial Intelligence

Artificial Intelligence or AI

is a computer based programme which can do any types of software commands we give it. It is nowadays ~~many~~ too much helpful for us to lead our regular life. It make our life ~~est~~ easier from prevous generation. We can do anything with it by a single command. ~~for~~ Preparing text, Image creation, Basic suggestions, ^{editor} and alots of features have the pre Artificial Intelligence. We can

calculate a big amount of billion,
~~trillion~~, trillions within a single
command. people are using AI for
their daily part of life. office
workers are preparing their files,
Student making notes and influences
getting ideas from AI. It will

be more developed in coming decades.

It connected the whole world
in a chain which is too much
~~impactful~~ impactful for this generation.

AI is also helping in the field
of teaching and learning. Nowadays

Students are preparing their lessons through

AI. A topic which is hard for the weak students can be simplified with

the help of AI. Not only learning, but also teaching is also possible

by using AI. Online classes, E-books, and learning from Electrical technologies

is in the helping hand for the students

AI is possible for AI. So AI is a revolutionized the teaching and learning

process. In Medicine, Engineering, Business,

AI is also Impactful. But demerits

also found in feature. People are

getting lazy as they can do their

works, lying on the bed. Creativity

is hardly found in students nowadays.

Everything is working within a blink

of eye. So, ~~After~~ After some years,

people will ~~fully~~ depend on AI.

But AI is too much helpful for us

and it will ~~create~~ a revolutionary

change to our life.

Pasteur was a French scientist.

He noticed that many diseases are caused by germs and he also found cures for several of them. At first he treated only animals because he didn't want to cause death of any human. He found a mad dog and injected some weak germs of its disease into its blood. The dog was cured. One day, a boy named

Joseph Meister was brought to him.

He had been bitten by a mad dog.

Pasteur gave him some injections and

the boy did not get the dog's disease.

Other doctors began to study

his works. The news of Pasteur's

success spread all over the world.
