Ⓐ The writer can't write beautiful words about Groza because of the poverty, siege and famine. He can only see the deprivation in every house.

Ⓑ The author became sad when he aware of it.

① The author goes around the world in dream. He can imagine Cyprus, travel to Paris, fly to Rome, all while standing in the same spot.

② The author goes back to the reality of Gaza, the dirty market over flowing sewage, the cords, and what's on top of the cord's; the suffocating smell, and the silent people who can't speak.

③ The author fears flies because he thinks a fly will land on any of ^{his} brothers, and it will kill them.

Artificial Intelligence

Artificial Intelligence is something

that we human created to make our life much easy. It can answer everything. It can generate any

type of picture. It can make a

3d model of a human, dog, cat etc. Now a days many students make their assignment using A.I.

A.I can do anything that take

human too much time to do. There

are many A.I. like chat gpt,

gemini, Grok, etc. In this world
many school and colleges use

AI to teaching and learning.

AI analysed every student

in the class and told him what

he is lacking of, how he

can improve in his study. If

he makes any problem in study

It can show how to solve it.

Many AI can solve too hard

math questions. Some says AI

can replace a human and take

6 their job. I think AI is to help us. It will help us in our daily tasks. We should use this

to make our life easy. Student should do their assignment on their own.

In the chart it shows the sources of the USA electricity in 1980.

As we can see, In 1980, USA produce 46.50% of electricity by burning coal. They get 24% elect. electricity from natural gas, which is the second biggest source of their electricity. They get 12% electricity from oil. From hydro electric power they get 16% electricity. At last they

create 2% electricity from Nuclear
power plant

Size doesn't Matter

Once a lion was sleeping in a
forest. Suddenly a "mouse" came
there. It was, in fact, playing
on a race "quite happily" and
didn't notice the sleeping lion.
While running it crashes into

the lion. The lion woke up

and told he will eat the

mouse. The mouse told the lion

"You're the king of our jungle. You won't get enough nutrients after eating me. If you spare my

life, I will help when you fall

in danger." The lion laugh and

said, "How could a small mouse

will save him". Anyway the lion

didn't eat the mouse. Some

days later that lion fall into

hunters trap. He tried everything

but failed. Then the mouse came

cut the net and helped the lion to escape.

Dear Shiba,

I hope you and your family is well by the grace of Allah. You know that our HSC exam is ending soon. Now I'll tell you what I'll do after passing exam.

I'm thinking of going on a vacation after the exam ends. Then I'll start prep study for university. I think if you don't use this time properly you will regret in future. So use your time wisely.

No more today.

Yours ever
Kuddus.

From,

Kuddus

Theme of the poem:

Everyone dreams but not in the same. Some dreams while they sleep and some dreams while they are conscious. Those who dreams with open eye and make their dreams come true are real dreamers.
