

Dear Karim,

First of all take my heartfelt greetings and
wishes best wishes. I hope everyone in your family
is doing well by the grace of Almighty Allah.
I am also fine. It's been a long time since
we last talked. Finally I got a chance chance
to write you and share my thoughts about
my future plan after passing year exam.

After 2 two days later, my annual
examination will be finished. After exam,

I decided me and my family enjoy the free time. We play football and we will go to see movie. Then, we will go Cox's Bazar, for Peace Because Cox's Bazar is the most beautiful place in Bangladesh. So, this is my plan after my exam.

Take my Salam. Convey be regards to your family.

Yours ever,
Rahim

Answer to the question No. - 2

"Artificial Intelligence"

Artificial Intelligence means it is a

software programme and it helps many us

by solve many problems. Like ChatGPT, DeepSeek

etc. Many features features of AI are

included in AI system. People asked anything

like a world, health issue tips, general knowledge,

and many more problems. This is very

helpful software for all people's in this world.

But most of the times AI used for

teaching and learning. In our world,

many countries' children are poor

economy. This reason many children

haven't enough money to ~~to to~~ learn

by a private teacher. So, AI helps them

to read smoothly and gain knowledge.

So, this way children learn and children is

the future of our world. So, And AI

is the future of world. But many

side-effects are using create by using

AI. So, people like people we this

teach tech programme in bad ways. Like
that face change, a vid video edit, create
some bad pictures and many more prob

problems are create by using AI. So, we
see that AI is very helpful for human life.
and it helps our regular work. But
many big problems are held by AI. A many
naughty people use AI for their need. So,

We should use ~~we use~~ AI for good gain
knowledge and ~~many~~ more important issues.
