Ans. to the ques. no. 7

## Artificial Intelligence

Artificial intelligence known as AI is a software which has his own power to solve or answer many things. It is huge success in human history. The AI has made many complex things look easy. The human made artificial intelligence is a storage of many information like wikipedia but more human friend friendly and easy to use. It has been given in many ICT devices to make their work easy and fast. Even our daily need devices like smartphone, PC, TV and many

other things are filled with AI. The AI can generate images and videos, ~~do~~ solve our educational problems, makes our doubts easier and many more things. Now half of our work is being done properly and easily using AI. Even recently our streets are being surveilled by CCTV using AI. The AI does run on its own, it needs its application. Our most known AI's are ChatGpt, Gemini, Claude. They help us in our daily life and makes our work of all sectors easier. It can even solve our educational problems. Even

many educational videos in internet  
are being made using AI. Though AI  
helps us in many sectors but their  
are some things to be worried about. AI  
has started to use our personal information  
to improve its own server. It can run through  
our smart devices easily and see our  
files and folders. Although it says us  
that all our personal information are  
safe with him, but we should also  
be cautious about it.

The chart in the passage shows declares us the source of USA electricity in 1980.

As per shown in the chart ~~the~~ massive amount of electricity ~~is~~ was produced by coal. And it is also clear that the least amount of electricity was made using nuclear.

In the chart, USA produced 16% of its electricity using hydro-electric power of its total. After that there is nuclear which was the least amount ~~of~~ of percentage to generate electricity ~~that~~ USA in 1980, which is only 2%.

The oil produced 12% of its total ~~to~~ electricity

in 1980. Lastly second most main source of electricity was natural gas which was only 24% of it's total. Lastly, there

is coal which covers almost half of our

the chart and the percentage is 46%.

It is clear that in the late USA the natural ~~gas~~ elements were the main source of electricity in USA.

### Reward of Forgiveness

Once a lion was sleeping in a forest. Suddenly a mouse came there. It was, in fact, playing on a race quite happily and didn't notice the sleeping lion. While ~~sleeping~~ running, the mouse stumbled on the tail of the lion. The sleeping lion woke up and grabbed the lion mouse. The lion said he was sleeping and the mouse disturbed him and now he was going to eat that mouse. But the mouse begged to the lion ~~that~~ to leave him and ~~also~~ also said that he didn't notice

the lion. The lion felt pity seeing that small mouse and ~~he leave him~~ <sup>he forgave</sup> ~~left~~ him ~~there~~ and <sup>told him</sup> not to disturb him again. The mouse <sup>helped</sup> ~~helped~~ him and <sup>thanked</sup> ~~thanked~~ said he will return his favour one day.

One day, the mouse was walking in the forest and suddenly started to hear someone screaming. He looked here and there and finally saw the lion whom he disturbed while sleeping is now hanging on in a tree on a hunters net. He rushed towards him and cutted the net using his sharp teeth. After

being freed from their they both ran  
from that place and stopped in a safe  
location. The lion thanked the mouse for  
saving his life and ~~understood~~ thought  
it he had not forgive him that day and  
ate him then today he might have been  
killed. He got the reward of his forgiveness.

Azimpur, Dhaka

Dear Juliya,

I hope you are doing well. My HSC examination is going to finish in next month and I want to discuss about my future plan with you.

Exactly after one month I am hoping my exams will be finished and I'm hoping to do well in my exams. But after the exam finishes I'll get a long vacation. I don't want to waste my time sitting and hanging out. I want to learn some skill, I am thinking to learn how to make an AI of my own and if it goes well I'll publish it online and

make it free for others too. My main motive is to help others.

I hope you'll like my idea and give me suggestions in your prespective should I do this or not. Hoping you to stay well and healthy.

Your loving,

Iftee
