Artificial Intelligence (AI)

Artificial intelligence is a machine which can understand human language and act according to it. The short form of artificial intelligence is Ai. The vast amount of data from the internet is inputted in Ai. Ai like Siri and Google Gemini can help us in our daily life. Chatbot Ai like ChatGPT, Gemini, Grok, Claude ~~can~~ are helping humans in their daily life. Ai was mainly designed to solve big problems, complicated maths etc.

Programming and coding is the heart of financial industry. By using Ai anybody

like you and me can code and

of programme by using Ai. Ai has

revolutionized teaching and learning and

learning too. Any problem can be solved

by Ai, not just solve they also

explain their solution step by step.

It has a negative side too. Ai is just

a tool which is used by us humans. Human

use Ai to spread fake news and

photos. ~~vid~~ ~~video~~ Ai is becoming more powerful

so the difference between reality and

Ai is getting lessen day by day.

Answer. No-8

The chart shows the sources of the USA electricity in 1980. We can see a crystal clear division of the sources of USA electricity in 1980 from the chart.

The major source of electricity is produced from coal. Coal produces 46% of the USA electricity in 1980. Natural gas produces 24% of USA electricity.

Which is almost half of the amount what coals produces. Coal produces 22% more electricity than natural gas. 16% of the

USA electricity is produced by Hydro-electric power, which is 30% less than coal. Oil provides 12% electricity in USA in 1980. Comparatively Coal produced 36% more electricity. The least amount of electricity is produced by Nuclear.

The chart indicates the sources of USA electricity in 1980, where coal produces excessive amount of electricity and nuclear produces least amount of electricity.

Answer, No-9

The Lion and Mouse

Once a lion was sleeping in a forest. Suddenly a mouse came there. It was, in fact, playing on a race quite happily and didn't notice the sleeping. While running, the mouse collided with the lion. Since the lion's sleeping ~~is~~ disturbed by the mouse, the lion got angry. The mouse tried to run from the lion. But lion caught him. The lion was about to eat the

mouse as a punishment. Suddenly, the mouse told the lion that, if the lion gets in any trouble in ~~future~~ future, he will save him. The lion burst out of laughter and let the mouse go.

Only day, a group of hunters came in the forest. Unfortunately, they trapped the lion with net. The mouse saw the whole scene. The mouse remembered about his promise with lion. The mouse goes to help the lion. With his sharp teeth he cut the net and freed the lion. After that, they become very good friends.

7/A Dhanmondi 32, Dhaka

Dear Luffy,

How are you? I hope ~~you~~ you're fine. Yesterday

I received your letter. In your letter you wanted to know about my future plan after HSC. In this letter, I'm going to describe my plan.

After HSC examination, I will start preparing for admission. As you know I wanted to become a doctor from the very little.

So I will prepare myself for a medical exam. While I will also prepare for

Dhaka University exam. Since many students dream

is to become a doctor, they all can't become doctor. Losing hope of life after that is a foolish mindset. That's why if medical doesn't work out, Dhaka University is my back up plan. I also want to know about your plan after ~~the~~ HSC exam. Let me know in your next letter.

No more today. Give my salam to your parents. Stay healthy and safe

Your ever

Fihaz
