c) health

d) healthy

e) educated

f) fit organized

g) teach

h) provide

i) best

j) positive

Answer to the Question NO: 10

27/06/26

Tatibazet, Dhaka

Dear, Arnob

I hope you are well. I am also fine.
I got your letter yesterday. In your letter
you have wanted to know about
my future planning after HSC. Now I
am writing about it. After HSC
I am willing to move abroad for
educational purpose. I want to go
there for higher study. So beside the
academic syllabus, I am taking a little
preparation for this. Perhaps I am
also thinking about starting a small -

business with the help of my
older brother. You know the current
situation of the job market of our
country. We all should generate new
opportunities. That's all I am planning
about.

No more today.

Let me know about yours too.

Yours ever
Sneha.

Answer to the Question NO: 09

9

Once a lion was sleeping in a forest. Suddenly a mouse came there. It was in fact plying on a race quite happily and didn't notice the sleeping lion. While running, the mouse jumped into the of lion. The lion woke up and got very angry over the mouse. The mouse apologize for it's did and told him if he forgive the mouse it will -

2

be his friend and help ~~in~~ ~~us~~ when he needs. The lion didn't take the mouse seriously laugh at it and said, "You a little mouse ~~can~~ think that ~~to~~ I will ever need your help?" The mouse ~~stayed~~ silent. The lion smiled and leave the mouse for this time. One day the lion was walking in the jungle and suddenly he got trapped by a net of a hunter. The mouse saw behind the ~~the~~ tree. The mouse came and helped the lion by cutting the net by its sharp teeth. The lion was pleasure. Moral of the story is -

we should not judge anyone by their outlook.

Answer to the Question NO: 11

3 The main theme of the passage is everyone can see dreams. But the people who work for it can make it come true. The dream we see while sleeping is so can be sweet enough to memorize, but the dream we see with our open eyes is the purpose of our life. Both are called dream. But each of them bear different value.

Answer to the Question NO: 08

This graph effectively illustrates the progression of data highlighting the variation. The portrayal offers a clear perspective on how the variable evolves over the given data. Different part of the pie-chart stands for the percentage of USA electricity. The highest amount of electricity generated by coal and the percentage is 46%. Natural gas's percentage is 22.24 percent which is 2nd highest. About 12% electricity is generated by

using oil. 2%. nuclear is used

for it. Hydro electric power is

used about 16%.

So Summarising the graph chart it

is seen that the large contribute

in electricity came ~~for~~ from using

coal. The smallest contribution

came from Nuclear in 1980.

Answer to the Question NO: 07

Artificial Intelligence (AI)

Artificial Intelligence is a robot or
a machine having ability to think,
work, solve problem like a human.

'Artificial' ~~mean~~ means man-made.

Intelligence ~~means~~ the mental ability
of thinking, creating, problem solving
etc.

AI ~~is~~ existing from so
long but ~~recently~~ it is getting more
popular. Modern civilization requires

modern solve of various problem →

which can be provided by the AI. Any kind of work of human can be done with AI. Nowadays

AI is applicable in everywhere. AI

mostly use in professional sectors.

AI assistant are assisting the doctor while their work and making their duty easier. Harmful work

are getting done by using AI so

that man don't need to risk their

life. Huge machines in factory use are

used for many less lengthy work.

Most valuable side of using AI

is that it helps us learning. Ago

Anyone can use AI through their

phone now. We all have our personal

assistant like google, siri, chatgpt etc.

We can ask about anything to it.

We can solve anykind of problem using

these features. Our life is getting

more easier with the help of AI.

We can learn our academic topic with
visual and more interest by using

AI. AI generated picture are used

everywhere now. long process of

works like video editing, graphics

designing etc are now work of —

two minute. Some people see AI as a threat of taking people's job. Though human can be replaced by AI, it is generating more opportunities. If we learn using

AI in a right way the progress level of our country will increase.

Knowledge is the power. AI can work as a source of knowledge.

With the help of AI, we

can create a smart and intelligent nation. But we should be aware

of the misuse of it. AI is not only useful but also harmful.

People with the bad intention can be reached to their plan using it.

So we should train up people. We

~~should not~~ use AI as a tool

with bad intension.
