

Answer No. 7

Artificial Intelligence

Artificial intelligence (AI) is a kind of

artificial brain. Human makes it for helping

them different sectors of their daily

life. Artificial intelligence works like a

computer. It can thinking, solving

problem and so on. Nowadays AI is

turn into chatgpt, Gemini etc. It can

be mobiled anywhere. students also

are benefited by AI. Teachers use

Them for many purpose. Above all,
AI makes our workload light and
makes our time long. On the other
hand, there are some disadvantage

too. Sometimes, we can see that stu-
dents are depends on it more than
they need. It also hampers our
creativity power. The prediction goes that

AI is harmful for a human
existence. So, we should use it in
limit and we should not abuse of

AI.

Answer No. 8

The pie chart represents the

the sources of USA electricity in 1980.

In this chart, we can see hydro electric source use 16% to produce the electricity.

It is important to note that

the highest use of electricity is 46%.

and it's of source is coal. though.

though The 2nd highest source is

Natural gas 24%. The source of oil

use 12%. The source of Nuclear

use 2% which the sign of development country. we can say that

USA use coal more than hydro electric power this is not so good. Environment friendly source can reduce climate change. so, we all should concern about the use of electricity source.

Answer No: 9

Size ~~Doesn't~~ Matter to help.

Once a lion was sleeping in a forest. suddenly a mouse came there

It was, in fact, playing on a race

quite happily and didn't notice the

sleeping mouse lion. While running, the
mouse entered the lion's nose by
its subconsciously. The lion woke up
and shouted the mouse. The lion
got angry and wanted to eat the
mouse. The mouse said, 'sorry'. The
lion decided not to eat. One day,

The lion was walking through

in the jungle. suddenly, he was caught

by a hunter's net. The lion roared
and cried. At that time that mouse

attended there and asked the lion
→

asked if she could help him. The lion gave
her permission. The mouse cut the net

by using its sharp teeth. The lion
was freed from the trap. The

lion understood that small in size
can help the big size. The lion

thanked the mouse and they made

friendship with each other.

moral: we should not underestimate anyone

by his/her size or cover. Lower class
can help the higher level.

Answer No. 110

~~Nazipur~~, ~~Nagaon~~,

~~Date: 27-06-26~~

Theme: The poem is about the power
of dream. Dream can make us strong.
Night dream is not real dream this

3 are only subconsus activity. Day dream
is real dream. Day dream can reach
help people to reach goal.

10 Pasteur was a French scientist. He noticed that many diseases are caused by germs and he also found cures for several of them. At first, he treated only animals because he didn't want to cause death of any human being. He found a mad dog and injected some weak germs of its disease into its blood. The dog was cured. One day, a boy named

Joseph Meister was brought to him.

He had been bitten by a

mad dog. Pasteur gave him some

injections and the boy did not get the

dog's disease. The news of Pasteur's

success spread all over the world. Other

doctors began to study his works.
