2 All of the people watch dream in their subconscious mind. Some one dream

in the night after sleeping. This kind of dream is valueless and it will not come true in reality. But the dreamers who dream day they want to see his dream in reality so they work hard.

My dear Arif

I hope you are well. I am also well. I receive your letter ~~few days ago~~. In your letter you wanted to know about future plan after HSC exam.

After passing HSC exam I prepared me to get admitted in a renowned medical college. So, I need to learn more after passing the HSC.

Admitted into a medical college I shall complete ^{to be} my ~~counsel~~ a doctor. It is my dream to be a greatest doctor in the Bangladesh. So I need to work hard on my dream.

No more today. Convey my salam to your parents

Yours ever
Shovo

Pasture was a French scientist. At first he treated only animals because he did not want to cause death of any human being. He found a male dog and injected some weak germs of its disease into its blood. The dog was cured. He noticed that many disease are caused by germs and he also found cured for several of them.

One day a boy named Joseph Meister was brought to him. He had been bitten by a mad dog. Pasture gave him some injection and he got the dog's disease. The news of Pasture's success spread all over the world. Other doctors began to study his work.

A Lion and a mouse

Once a lion was ~~st~~ sleeping in a forest. Suddenly a mouse came there. I was, in fact, playing on a race quite happily and didn't notice the lion who was sleeping. While running in front of the lion's nose, the lion woke up and ~~contin~~ continuously roared. Seeing him the mouse was very ~~atrain~~ afraid. The Lion told him that I ~~is~~ were surely finish you. Why ~~are~~ were you done that kind of misbehave with me. The mouse ~~la~~ replied in a calm tone the king of the forest I am extremely sorry for my behaviour.

I must not do that kind of behaviour with you. Forgive me this time. I will help you in later when you fall into danger. The lion fought at to harried his. And then the lion forgave him.

After a few days ~~latter~~ later the lion was roaring in the mid forest. The mouse ~~go~~ there and see saw the lion was marginalized by a hunter net. Mouse went to the lion and asured him to save his life. Then the mouse cut the net to save the life of the lion. The lion thanked him.

The pie chart show the sources of the USA electricity in 1980. There are five parts of the electricity source like Hydrocarbon electric power, Nuclear, oil, coal 46%, and natural gas.

5. At first the pie chart indicates that USA electrician produce electricity by using Hydrocarbon electric power and it was 16 percent. 2%. Natural Nuclear energy is used by producing electricity. And it was is the lowest percentage of the chart. Nuclear element are very rare.

12% oil is used to produce electricity. Coal is highest use of to produce electricity and its percentage is 46%. Coal is very important to produce electricity. It is easy to process and it produce high amount of electricity. The pie chart shows that 24% natural gas is used to produce electricity. Use of natural gas is the best way of producing electricity. Natural sources are available in the world.

The pie chart inform us to know that the process of producing electricity. Nuclear energy is the ^{highest} and coal is the ^{lowest}

lowest highest use by producing electricity.

Artificial Intelligence

Artificial Intelligence is the wonderful invention of modern science. Artificial Intelligence is use to make decision, to solve problem and to give information.

Artificial Intelligence works as a man.

It is used special programme and Algorithm

to invent it. The example of ai is just like: open ai, google assistant, brenni, meta ai etc.

AI can solve many equation in just a few second. AI is used in

different sector of our life. The doctors

are use ai to diagnose a disease perfectly.

The doctor use ai to find the source of a disease. Business man can use ai to detect his position to the share market. By using Ai farmers are growing their crops highly. They can save their time and grow crops highly.

AI revolutionized teaching and learning the student summarize their lesson by using ai. If teacher prepare their lesson by the proper use of ai. AI solve the mental equation within a few

second. AI has some demerits too. It has taking place some office, and increase the unemployment of all over the world. Student are much dependent on it. It has decrease their creativity. If we use it in a certain level it will be blessing for us.
