The sources of the USA electricity in 1980

The pie-chart delineates the sources of the USA electricity in 1980. In this chart we can see different kind of source and it is divided into five parts. They are Hydro-electric power, Nuclear, Oil, Coal and Natural gas. Among them the highest source is

Coal and its percentage is 46%. Then

the second highest source is natural gas

and its percentage is 24%.

It is 22% less than highest source.

Hydro-electric power placed in third and

its ~~part~~ percentage is 16%. The fourth

place stand for oil and its percentage

is 12%. At last, the lowest score

is nuclear electricity and its percentage

is 3%. The difference between the

highest and lowest score is 44%.

So, it can be said that coal is very

useful and money consuming and the

~~the~~ nuclear electricity is very costly.

However, analyzing the ~~graph~~ pie-chart

it can be said that the chart is
very up-to-date and informative.

Once a lion was sleeping in a forest. Suddenly

a mouse came there. It was, in fact,

3 playing on a race quite happily and didn't

notice the lion. While running, the mouse

~~suddenly~~ suddenly go to the lion's nose

and lion woke up. The lion catch the rat

and said, "Oh little mouse, why you disturb

me. Now, I will kill you." Then the mouse

said, "Please forgive me. One day, I will

help you in your danger." The lion ~~has~~

laughed to heard this. After, some

days a hunter came to the jungle

and spread some net to catch the

lion. The lion caught by this net

and roared loudly. Hearing his roar,

the mouse came ~~here~~ here and

cut the net with his sharp teeth.

Then the lion ~~became~~ pleased to the

a mouse and they became friend.

The poem shows the importance of

dreaming. It tells us that we all

should to see this kind of dream

which we can do truly.

Ans to the ques no 11

The poem delineates the importance

of true dreaming. There is two types

of dream. We all should to use this kind

of dream that we make come true.

Dear Shuvo,

First of all, take my heartfelt

greeting and best wishes. I hope you

and your family doing well by the grace

of Almighty Allah. I am also doing well.

It's been a huge time since we talked

together. Now, today I will write to you

about the future plan after my HSC exam.

You know our HSC exam will be ended

very soon. So, I have a plan after

O.T. 9

my HSC exam. You know that many people

of my village are illiterate. So, me and

some of my friends planned that after

out our HSC we will try to educate them.

Many people out of our village see this

positively and they promise that they

will accompany with us. No more today.

Kindly convey my heartfelt Salam to your

parents. I wish you and your family good

health.

Yours ever

Badhon

Artificial Intelligence

Artificial Intelligence is a machine or

software which works like a human-

Now, it is very popular around the

whole world. Artificial Intelligence have

many features, like

solving, generate creative idea like

human etc. People use it in many

sectors. By using AI, people get

different-different idea about

business, and how to apply it. Besides

Artificial Intelligence revolutionized our

teaching and learning method. AI has

many tools which makes our study

easier. If any student can't understand

any math or critical question he asked

to the AI. There have different many

types of AI like ChatGPT, Google Gemini,

Notepad, etc. Besides learning AI also used

for teaching. Now many country of the

world use it to teach their children.

Everything has two sides one is good

and one other one is bad. AI also have

two qualities. We can hear now

that many students use AI in

their exam hall and copy from AI.

It is a curse for the nation. So,

we all should be aware to use

AI. We just should use the positive

side of AI.

Noted. etc. Besides learning AI can

0

for teaching. Now many countries of the

world use it to teach their children

Learning from two sides one is good
