

Ans to the question no: 1 (A)

(a) Ans: iii. being displaced live outside the country.

(b) Ans: (ii). flying objects.

(c) Ans: (iv) defense.

(d) Ans: (i) hurled in a large number.

(e) Ans: (i) coward.

Ans to the question no: 1 (B)

(a) Ans: The writer can't write beautiful words about Gaza because of Gaza's poverty, siege and famine, the deprivation in every house, the fear and sickness of general people of Gaza.

(b) Ans: Crying ~~adults~~ general people and animals, trees, stones did the author become aware of. He can't use ~~in~~ nice words because of this.

(c) Ans: The author can go around the world by dreaming. Sea is the only thing that helps him dreaming travel to around the world by standing in the same place.

(d) Ans: The author go back to the reality of Gaza because the poverty, crying people, hungry and ~~no~~ other sufferings of Gaza can't go without author's attention. He wants to travel around the world but go back to the same spot for this.

(c) Ans. The author fears flies because he thinks it will kill his older brother that's why when he watches a fly land he starts shouting and ~~run~~ run away from the place.

Ans to the question no. 3

Hope is the only thing which is important role to live peacefully.

It has fear but people live in Hope. they can't live without it.

Their hope is always high when they dream about anything they started hoping that it ~~will~~ would come true.

The writer heard it in the coldest land and strangest sea and never stops it at all.

Ans to the question no:2

Dropping out of school

Beginning full-time work

Becoming vulnerable to all forms of abuse

paying dowry

losing their mobility

curtailing economic and non-formal educational opportunities

Ans to the question no. 4

- 4.5
- (a) attain.
 - (b) why.
 - (c) perhaps.
 - (d) overcome.
 - (e) courageous.
 - (f) result.
 - (g) hopeless.
 - (h) inspires.
 - (i) successful.
 - (j) disaster.

Ans to the question no. 5

- (a) rights.
- (b) improvement.
- (c) health.
- (d) making. producing.
- (e) educated.
- (f) decent.
- (g) teacher.
- (h) give help.
- (i) right.
- (j) positive.

Lalbagh, Dhaka

27 June, 2026

Dear Maki

2
I hope you are well by the grace of Almighty Allah. I have received your letter just now. You have wanted to know about my future plan after passing HSC Exam. Well, you will be happy to know that I will participate the admission exam after HSC. I will be admitted at Udvash Engineering Coaching and will continue my journey with them till my admission last exam. I will attend the exam like BCKRUET and some University like JU, RU.

No more today. Convey my best regards to your parents

Yours
Tawhid

Ans to the question no: 11

2 In this poem the poet wanted to describe the difference between daytime dream and nighttime dream. The nighttime dreams are useless, the nighttime dreamers dream while sleeping but in real life they don't work for this. On the other hand daytime dreamers are dangerous, they work hard for his dream and make them come to reality.

Ans to the question no. 7

Artificial Intelligence is a machine which is 'thinks' like human brains and try to act like human. AI is a wonderful Invention of modern technology. Basically AI runs with some wonderful algorithms and programmes which is controlled by computer data. Computer absorb data and input them into AI. AI collects the all information throughout the Internet and works with it when someone needs them.

AI has many features. It can solve complex mathematical problems, think like human, answer the question the way asked and many other things.

AI can give answer within a second.
It works very fast. When someone
wanted to know about anything and
they asked it to AI he get info
within a moment. AI has many
application in real life. We can
solve our any problem by this. Stu-
Specially students, AI is a blessing
for them. They can understand the
hard and complex theories, mathematical
problem by using AI. AI is also a
best option to learn a language. People
can communicate with this any language.
It also used in diagnosis. Doctors
are using AI technology to diagnosis
complex health issues and detect them
early. As a result many of patients

P.T.O

get his life back. AI is also used in Education, Bank business and every sector of life.

AI revolutionized teaching and learning. Teachers can teach student with more information and easy way by using AI. They use smartboard and many software by using AI which is blessing for students. Students can improve their studies with online classes and some AI generators like Siri, Google Assistant, Chat-GPT etc. It helps them to solve any kind of problems. Though it has many uses but it has some threatening issues too. Overdepending on AI is dangerous for us. It will decrease our critical thinking and solving

P.T.O

capability. Moreover, AI is threatening the job sector. It will kill the job sector and many people will be jobless in future. But this AI is actually a blessing for modern life which has some demerits but still it is a great Invention.

4 This is a pie chart. The pie chart illustrates the sources of the USA electricity in 1980. The sources of electricity mentioned in the chart are Hydro electric power, Nuclear, oil, coal, Natural gas.

P.T.O

From this chart we can see that a large number of proportion is coal which is 46%. ~~That it~~ indicate that the source of electricity is mainly natural element. Also we can notice that there is 2nd highest rate is natural gas which is 24%. Third most percentage is Hydro-electric power which is 15%. oil is 12%, and the least percentage is 2% which is Nuclear.

From this information we can see that the highest proportion is 46% which is coal and the lowest one is Nuclear which is only 2%.

We can say that the ^{source of} USA electricity in 1980 was mainly

depended on natural elements like coal, natural gas. Moreover, a little amount of sources of electricity was produced by nuclear, oil and hydroelectric power.

A lion and mouse

3
2 Once a lion was sleeping in a forest. Suddenly a mouse came there. It was in fact, playing on a race quite happily and didn't notice the sleeping lion. While running, the mouse stopped by seeing watching a piece of bread beside the cave. He was very happy because

P.T.O

the bread was his favourite. He stepped in to the bread and picked up this and started running. At this moment, the lion woke up. The lion was very hungry. It also wanted the piece of bread. The lion asked the mouse, "What are you doing here with my bread?" The mouse replied that I want this bread. I'm hungry. The lion told the mouse that I will give you this piece of bread if you help me to find my meat. The mouse agreed with him and told him that he knows a place where many types of animals like, forest, hen, and many

P.T.O

animal lived which will be a perfect launch for lion. The lion hearing this became very happy. He went with the mouse and saw that there were many many forest hens. But the problem is catching the hen is very difficult for the lion. At once a beautiful idea came into his hand, he told the mice that you leave here some little piece of bread and the hen will come here to eat it and at this moment I will catch it. Then the do the work with their plan and get successful. The lion thanked the mouse and leave the place at once and started lead his life.

P.T.O

Moral:

For getting some thing in you
have to do something.
